and strong comprehension

## Education

1999-08 – 2004-07

Oxford Brookes  
University

**Joint Hons BSc  
Software Engineering  
& Multimedia  
Systems**

1995-08 – 1999-06

American Intl School of  
Johannesburg  
South Africa

**IB Diploma  
American High  
School Diploma**

Jan 2016 - April 2016

**Freelancer**

I worked briefly on a startup with a friend, building a  
HTML5/JavaScript app.

May 2012 - Jan 2014

**Trudon**

Built a HTML5/JS mobile web app, contributed to a Adobe  
Flex-Java-Oracle system, and built a Windows 8 Phone app in C#.

June 2011 - May 2012

**Falcorp Technologies**

Supported an internal custom-built PHP system that served  
as client's business process engine.

Dec 2009 - Jan 2011

**South African National Parks**

Supported the parks website. Led the process of redesigning website  
and codebase, involving both frontend and backend

May 2009 - Sept 2009

**Jobs.co.za**

Supported website and carried out feature requests.

Jan 2008 - May 2009

**Accenture**

Worked at state agencies as technology consultant, team lead,  
business analyst, and tech lead. Produced documentation and  
managed technology projects.

Sept 2006 - July 2007

**Pod1**

Was responsible for bugfixing and maintenance on various  
clients' websites and intranets. Also, worked on internal intranet site  
for agency.

July 2004 - Sept 2006

**Oxford Brookes University**

Supported the School of Health and Social Care's public and intranet  
websites. Was responsible for content management. Converted both  
websites for School of Health and Social Care into dynamic sites, using  
custom-built PHP framework.

July 2002 - July 2003

**iOra Ltd.**

Support programmer, as part of work experience towards my degree.  
Built a desktop application in Visual Basic to help with bug tracking  
on the development team and supported another test management  
application.
