Mina Demian

Front-end Engineer at One Agency Sweden AB

Hässelby, Stockholm County, Sweden

Summary

I'm a front-end engineer, building applications with Angular 7,
TypeScript, Node.js, SASS, HTML5, and CSS3. My experience
includes working with AngularJS, Less, Angular Material,. Material
Design, Docker, Ansible, and Google Cloud Platform.

Experience

One Agency Sweden AB
Front-end Engineer
January 2019 - Present

Kivra
Front-end Engineer
August 2016 - January 2019 (2 years 6 months)
Stockholm, Sweden

self-employed
Developer
January 2016 - April 2016 (4 months)

A friend retained me for his technology startup to build the prototype for his
app. I helped his team clarify the requirements, draw up the early mockups,
and started building the app in HTML5, CSS3, and JavaScript.

Freelancer
Freelance Writer, Journalist, Researcher
September 2015 - December 2015 (4 months)

Freelancer
Freelancer
February 2014 - March 2014 (2 months)

Trudon
Web Application Engineer
May 2012 - January 2014 (1 year 9 months)

I added value to the company by working on projects that needed a turnaround or required fresh resources. I also stepped in to help the Trudon to install, customize, and deploy a product that they had acquired ... and I had never worked with the technologies before!

Falcorp Technologies
Technology Consultant
June 2011 - May 2012 (1 year)
Johannesburg Area, South Africa

The role at Falcorp's client required me to be both developer and consultant. I supported their internal custom-built business process engine and took ownership of the flow that produced their quarterly reports.

South African National Parks (SANParks)
Web Developer
December 2009 - January 2011 (1 year 2 months)
Pretoria Area, South Africa

I was responsible for feature requests and maintenance of the external and internal websites. I led the team of 4 (including an external designer) effort to redesign the website and codebase. This involved both frontend and backend.

Jobs.co.za
Web Developer
May 2009 - September 2009 (5 months)

My responsibilities were to implement feature requests and support the main jobs.co.za website.

Accenture
Technology Consultant
January 2008 - May 2009 (1 year 5 months)

My roles varied from technology consultant, business analyst, and tech lead. I led the team that launched the main news site for the South African public broadcaster. My responsibilities included producing documentation and managing technology projects.

Pod1
Maintenance Developer
September 2006 - July 2007 (11 months)

I was responsible for bugfixing and maintenance on various clients' websites and intranets. Also worked on internal intranet site for the agency.

Oxford Brookes University
Webmaster
July 2004 - August 2006 (2 years 2 months)

I supported the School of Health and Social Care's public and intranet websites. Was responsible for content management. Converted both websites for School of Health and Social Care into dynamic sites, using custom-built PHP framework.

iOra
Support Programmer
July 2001 - July 2002 (1 year 1 month)
Basingstoke, UK

Support programmer, as part of work experience towards my degree.
Built a desktop application in Visual Basic to help with bug tracking on the development team and supported another test management application.

Education

Oxford Brookes University
Joint Honours BSc Software Engineering and Multimedia Systems, Computer Software Engineering · (1999 - 2004)

Free Code Camp
Full Stack Web Development Certification, Computer Software Engineering · (2016 - 2017)
